

An aerial photograph of the town of Eckville, showing residential areas, commercial buildings, and green spaces. The town is surrounded by large agricultural fields. A red-bordered white box is overlaid on the top half of the image, containing the event details.

TOWN OF ECKVILLE

WASTERWATER

PUBLIC INFORMATION SESSION

Thursday October 5, 2023
Eckville Community Centre

6:30 - 8:00pm

The Town of Eckville currently operates a standalone wastewater service under current regulations

This service is currently experiencing and anticipates challenges related to insufficient storage capacity and infiltration issues along with more stringent regulations in the near future

The Town needs to shift from the status quo and take action to meet environmental compliance standards along with addressing future storage capacity demands.
